and is being pressed for several years past. and has been carefully considered on several occasions in the past. ✻ Kind attention is invited to Mr: Bowen's note dated .. × and Sir Sheshadri Iyer's order thereon dated 1.10.96 in which the risk attending on attempting the re-construction of the Vimana has been set forth as a reason for giving up the idea.

The Members for Bolen made his representation in the Dassana Representative Assembly with redoubled vigour and the Question was taken up for enquiry again until at last Sir M. Visvesvaraya. as Chief Engr: reported in his letter No. 10148 of 8.11.10 that an attempt to repair it on modern principles might endanger the building as a whole, that the construction of a new gopuram of the same design with proper foundations with a view to some permanency will cost 70000 to 80,000 & that he had given new instructions as to what might safely be attempted so as to prolong its existence as long as possible. 30 Mes subject continued to be pressed in the Representative Assembly, and now two alternative Estimates for 45000 & 31000 &

✻ The Residents of Bolen have all along been importunate in the matter & Representations have been repeatedly made in the Dassana Representative Assembly also on the subject

NOTE—Contn. sheet.

R. S. III-2

General and Revenue Secretariat.

and the Chief Engr. again gives the same opinion as his predecessor that from an Engineering point of view it is not advisable or desirable to construct a vimana on the Temple.

2) The matter has to be decided one way or the other. ~~Perhaps~~ Weight of professional opinion is against the construction of the dome at so much cost. What is therefore required seems to be in the ~~words~~ of Sri Sheshadri Iyer ~~found~~ 'a workable roof', and if approved, the Chief Engr. may be requested to get up a carefully prepared estimate for giving the temple this.

Submitted for orders.

SUBJECT No. 444.

A *Vimana* to Sri Channakesavaswamy temple at Belur.

Messrs. Dande Kesavachar and Kesavadasaiengar, Belur taluk

Summary of discussion.—A sum of Rs. 13,000 was fixed for the construction of a *Vimana* half of which was to be paid by Government, the other half being collected by subscriptions from the eight districts. This order was passed during the time of the late Dewan, Sir Sheshadri Iyer. The records pertaining to the matter may be available in the Public Works Department. It is prayed that in pursuance of that order, steps may be kindly taken to construct a *Vimana* to the temple.

Reply of Government—Noted.

V.N.S.

SUBJECT No. 286.

A *vimâna* to the temple of Sri Chennakesavaswami at Belur.

Messrs. Dande Kesavachar and Kesavadasiengar, Belur taluk.

Summary of discussion.—The subject of constructing a *vimana* to the temple is being brought forward year after year. The temple workmanship is a wonder which attracts travellers from all parts of the world. That such a famous temple should remain without a suitable *vimana* is a great want. It is therefore prayed that endeavours may be made to construct a *vimana*.

Reply of Government.—Will be referred to the Public Works Department.

Mysore Public Works Department,

Central Office,

Dated Camp Mysore, 21st August 1919.

From

S. Cadambi, Esq.,

Chief Engineer of Mysore,

BANGALORE.

To

The Secretary to Government,

Muzrai Department, Bangalore.

Sir,

With reference to the correspondence ending with your letter No.3510/Muz 716-12 dated the 12th May 1919 re the construction of a dome for the Chennakesavaraswamy temple at Belur, I have the honour to forward herewith three alternative designs prepared in this Department. In all such cases, I believe that the structures are to be in accordance with certain tenets or rules laid down in the Shastras. It is not possible to say whether the designs now made are in accordance with such rules or principles.

Apart from that consideration, the old foundations have sunk and the walls have cracked. From an Engineering point of view, it is not considered desirable or advisable to construct a mana.

Enclosures:-

1 Petition.
1 Memo.
1 Estimate.
1 Comparative Statement.
1 Old Estimate.
2 Designs.
16 Plans.

I have the honour to be,

Sir,

Your most obedient servant,

Chief Engineer of Mysore

Reg. 09 JUL 1919 SOUTHERN CIRCLE

Memo on the design for a Vimanum over Garbagudi of the Channakeswaraswami Temple, Belur.

-----oOo-----

Drawing No.1 Gives plan, elevation, and Section of the required Vimanam.

Drawing No.2. Gives alternative method of finishing the same.

The Vimanam is designed, so as to comply with the requirements of the temple authorities and to cause the least pressure on the foundations and walls, that are considered to be, not in a very healthy condition.

The height of the Vimanam is made to be only about 35 feet from the terrace level of Garbhagudi and the width is only 28½ feet at the bottom. The structure is to be constructed of brick (country), in horizontal courses and plastered over, with a band of thin hoop iron bond given at every foot of height. The Crown of the Vimanum is to be finished with sheets of brass over boarding on teakwood framework. The finial (Kalasam) may be the same old one preserved by the temple authorities. The whole Vimanam is to be constructed over an armoured concrete slab 12" thick reinforced with expanded metal, over thin iron joists as shown in plan to distribute the pressure of the Vimanam on the walls of the Garbhagudi. On one side of the Vimanum and at the level with terrace of the Garbhagudi a door is given to enter into it. On the three other sides provision is made for sculptural treatments. On four principle sides provision is also made to have twelve rasigrahas and ten avatars sculptured in tiny figure. The body of the Vimanam is to be finished in the form of small Gopurams as shown in plan.

In the alternative design No.2 is given a suggestion to simply leave the body of the Vimanam plane (without small Gopurams) finished with rough plaster using plenty of coarse sand. An estimate for the two arrangements is attached. It is expected that the pressure on the foundation will not be more than ½ a ton per Sq.foot.

Bangalore

Estimate of the probable cost of Constructing Masonry Vimanam over the existing Mantapam for Sri Chennakeswara Swamy Temple at Belur Hassan District

Amount of Estimate Rs 108000/

G.R.S. VI-71]

SUBJECT... ... ...

of the subject from the
Shastraic point of view,
the old foundations have
sunk & the walls
cracked, and that
therefore it is not
desirable or advisable
to construct a Vimana
over the Temple

Order thereon

1860-62

Series 716-12-13
& 18-12-09

The residents of Belur
have pressed the
question of the construction
of a Vimana for the
temple. The question
for several years past,
and the subject has been
brought forward
for discussion in the
Mysore Representative
Assembly of successive
years.

GENERAL AND REVENUE SECRETARIAT.

(*Continuation sheet draft form.*)

So long ago as 1896, the risk of injuring & marring what remains of this old architectural building caused the idea to be abandoned. Since then Estimates aggregating Rs 18082 have been sanctioned as per margin for the repairs of the main building and the subsidiary grades and mantaps within the precincts of the temple, and the Archl Engr, attached to the Mus. Dept. who inspected the institution in Dec. of 18 reports that the building is not leaky and that of the estimate sanctioned in 1917 is fully

× Rs 12213 in fo No. 2035-7 Mus 13 F 09-6 & 12.2.10.

× Rs 5868 by wlo No. 2972-5 Mus 476-13-6 & 5.6.17.

Rs 18082

Out- there will [illegible]
no further cause for
complaint.

3) The professional
opinion has all along
been against an
attempt at the construction
of a costly & massive
dome which would
endanger the whole
building, and the Chief
Engr has, [illegible]
reported that from an
Engineering point of
view it is not desirable
or advisable to construct
a Dome.

which speaking for
him alternative
Estimate of Rs 45000
and 31000 Rs

4) Govt agree with
the Chief Engineer in
considering that it is
not advisable to construct
